PROFESSIONAL SUMMARY

Kirsty Lowe is a Consultant Clinical and Forensic Psychologist, a Chartered Psychologist and a Chartered Scientist.

She is also an Honorary Lecturer on the Doctoral in Clinical Psychology Programme at the University of Teesside and an Associate Fellow of the British Psychological Society. With nearly 20 years experience working as a psychologist in the NHS, with highly complex individuals she now provides expert witness services on a full time basis.

Kirsty Lowe is experienced in the assessment of many psychological issues.

These include assessment of sexual and violent offenders, anger management and impulse control disorders, learning difficulties and learning disabilities, capacity, fitness to plead, parenting, adult mental health, mental illness, ADHD, Autistic Spectrum Disorders, trauma, neuropsychological deficits, personality disorders and alcohol/substance misuse problems.

Kirsty Lowe is well recognised within the field, possessing considerable experience as an expert witness.

She can readily assimilate complex background information, review the results of assessments, and integrate a number of psychological models to aid the courts in understanding psychological issues. Having worked with people presenting with complex problems, she is widely respected for working with hard to engage individuals and creating ways forward. With strong written and verbal communication she prides herself on providing high quality assessments and reports that are well structured, objective, evidence based, as well as accessible to the lay person.
